VOLUNTARY CONTRIBUTION

FUNDING FOR AIR-CONDITIONING 2017

WE NEED AIR-CONDITIONING NOW

Our target this year is to provide a substantial contribution to school funds to provide for this vital improvement to our LEARNING ENVIRONMENT.

WE NEED YOUR DONATIONS

The government does not provide funding for this very necessary resource. COOL CLASSROOMS will assist in gaining the best educational outcome for our students & teachers.

FOR AN ENVIRONMENT THAT MAXIMISES ACADEMIC OUTCOMES

ASSOC. PROFESSOR MICHAEL NAGEL, USC

"...the brain is extremely temperature sensitive. Heat significantly impacts cognition and causes lower skills in intellectual tasks. Further studies showed higher temperatures influenced neuro-transmitters in the brain. This affects the serotonin level which leads to aggressive behaviour."
